1) Hardware Price includes the one time Activation and registration fee of 75 USD (time limited offer). Hardware is not identical. Standard, Executive and Premium Version does have different soft- and hardware layout.  
 2) No support of rich Media Content, such as Video or Picture transfer, chat only does get supported.  
 3) Disconnection is applied for your own safety. Re-activation fee, for a once disconnected TARKAN device, is one time 75 USD. Re-activation might invoke, that you do send us your device.  
 4) Tarkan by default goes to TURTLE Mode with 256 kbps speed limit, once the Data Volume assigned to the PASS as been reached. Alternative, customer can contact our support to manually END the pass and release a new one.  
 5) Post Paid Contracts are closed for 24 months and post paid at the end of the service month. Payment works by direct debit from EU bank account or revolving Credit Card. The service, if not cancelled 3 month prior it ends, does automatic re-new for 24 month.  
 6) TARKAN can be configured to always have a Simcard for the customer reserved. This feature is available for our 24 month CONTRACT customers. It provides a higher probability for TARKAN to connect throughout congested times.  
 7) Unlimited Data Volume in PRIME countries means, that no restriction in terms of transferred Data Volume in terms of GB does apply - and the network speed does not get throttled, after the end user is exceeding a certain included data volume. Typical 4G network standard speeds can get reached - in case not available as fallback 3G will get provided. EXECUTIVE and PREMIUM Customers with 24 month contracts can profit from unlimited Data Volume in our PRIME countries. PAY as you  
 8) Can get configured by support, prior a PASS does get activated  
 9) In case the customer leaves unused Passes loaded on the device, they will expire within the mentioned timeframe.  
 10) Customer only can switch between 7 Day, 1 Month or ongoing Subscription, if all passes of same type loaded on his device have been consumed. Mixed orders of passes different type cannot get processed by TARKAN.
