1) Hardware price does not include the one time Activation fee. Hardware is not identical. TERIUS versions do have different soft- and hardware layout. Upgrades of hardware is available. Every device will get delivered, including the mentioned number of Standard LTE Modules. Project discounts are granted on one single batch order volume.
 2) The typical speed, depends on the number of provided LTE channels supported and the LTE standard (CAT4 or CAT6). This is hardware related. It also depends on the GSM network itself used.
 4) level421 provides certain standard packages. However we are flexible to provide you an individual customer specific offer of supported countries out of those countries TERIUS does support.
 5) TERIUS ENTRY can be upgrade optional with one WIFI module 802.11 AC Standard, supporting 2.4 and 5 Ghz. Please order in our Online Shop.
 6) Service can get temporarily suspended two times for the maximum timeframe of 4 months within the time period of 24 months. The suspended number of months do get added at the end of the 24 months. Temporarily contractual suspension is possible with 30 days in advance notice and begins always on the next first day of the next month.
 7) Typical 4G network standard speeds for CAT4 LTE or CAT6 Advanced LTE can get reached - in case not available, as fallback 3G will get provided.
 8) Service continues for the same period as contracted, if not cancelled in time.
 9) When TERIUS reaches 90 % of its booked monthly Subscription Data Volume, the speed will be throttled to 10 Megabit. After reaching 95% of the booked data volume, the speed will be throttled to 1 Megabit. At 100 %, of the booked data volume, the speed will be throttled to 128 kbps.
 10) Customers do receive weekly reports on their consumed data volume and can instantaneously upgrade via our online shop, at any time. Customers also will receive volume warnings on reaching 90% and 95% of their booked data volume.
